CD Duplication Costs (Short Runs)

All costs include:

- white surface CD
- full colour or greyscale printing onto the surface of the CD (NB: up to 50% ink coverage only; add 50c + GST per CD if your design covers more than 50%)
- duplication of audio or data onto the CD from master CD supplied by the client

Additional costs:

- **Lacquer/sealer:** An optional lacquer/sealer coating can be added to protect the ink printing on the surface of the CD. This costs \$80 + GST setup cost per job + an additional 25c per CD.
- If required, design costs for the CD surface artwork are charged at \$80 + GST per hour. We also offer graphic design and printing services for the CD booklet/insert – ask us for a quotation.
- Slimline or jewel cases are additional to this price.

If you are supplying your own artwork, please ask us about specifications before you submit the artwork.

NB: Duplicated data CDs should work in all computers. However, duplicated audio CDs may not work in some (car) stereo systems. To ensure maximal useability in all stereos, ask us about replication options (500+ CDs).
